CRESTA AZUL 1967

PINETOP-LAKESIDE HIGH SCHOOL

"I would like to see the students of Blue Ridge High assume greater responsibility toward the school and thereby gain more freedom for themselves. I have observed a general upward trend this year, and I anticipate the development of facilities for art, remedial reading, and general instruction. Already we have a debate team, three All-State music winners, and a number of special interest groups. I am encouraged by our large potential."

Mr. Robert C. Noe

The Teacher

As a teenager in Cincinnati, Ohio, Mr. Noe was fondest of his English classes at Norwood High School. But later, when he enrolled at Miami University, Oxford, Ohio, he majored in psychology and minored in social studies. He completed his Bachelor of Arts Degree at Arizona State University, and obtained his Master's Degree in counseling in the College of Education at Northern Arizona University.

Mr. Noe came to Lakeside from Holbrook, Arizona, and began teaching here as an eighth grade instructor. In 1965-66 he served as a counselor. This year he has carried the double burden of administration and instruction.

He intends to earn his Doctor of Philosophy Degree at the University of Arizona and thinks of one day becoming a college professor.

Is 1967 Cresta Azul Dedicatee

The Citizen

Mr. Noe classifies himself as a man who is not a "joiner." But as principal, teacher, and community member, he has been or is a member of many educational and civic groups. In college, he belonged to Phi Delta Kappa, men's honorary education fraternity, and Psi Chi, national honorary psychology fraternity. He has been on the rolls of the Lion's Club, and is a member of the Arizona Personnel and Guidance Association, the Arizona Association of Secondary School Principals, and the Parent-Teacher Association. He has also aided in the establishment of a Pinetop-Lakeside community Youth Center this year.

His activities in school and community life have proven him to be a responsible, conscientious citizen, worthy of regard and respect.

The Husband

Mr. Noe is married to our Home Economics instructor, Mrs. Letty Noe, a native of Russell, Minnesota, whom he met at Arizona State University and married on January 22, 1954. They live close to the school in a pleasant, natural log house, with their dog, Patty, a big beautiful collie.

The interests of this tall, dark, craggy-faced man are quiet and generally meditative. He enjoys hiking and raising collies. He reads a great deal, often in the fields of philosophy and psychology, and is enthusiastic about good conversation.

This mentally dynamic man, who believes in involvement, despises above all else indifference, particularly among students, without any defensible reason. He hopes that his ideas and attitudes will never become stagnant or inflexible.

In Memoriam

Michael Burton Stapp was born on February 3, 1952, in Pineville Oregon. He was a cheerful boy, usually smiling, and a friend to all who knew him. He played the clarinet in the band and hoped to continue his music throughout his years in high school. He cherished a private desire to be a football and basketball player.

Blue Ridge students could not contain their sincere grief when they learned on February 19, 1967, that they had lost him. Teachers, students, and community members wept openly, mourning one of the happiest, most likeable, sportsmanlike individuals they had ever been privileged to know. His classmates, with tears in their eyes, spoke a tribute straight from their hearts that will not soon be forgotten: "He was a swell guy," they repeat, "A swell guy!"

Good bye, Mike: Thank you for what you left us.

School Life Ranges from Preparing for the Outside World to Preparing for School Activities

But Mr. Grubb you can't stay in the typewriter forever!

Freshmen Carole McCabe, Royce Gillespie, and Liana Larson decorate for Twirp Dance.

"The moving hand writes, and having written moves on." In writing our farewell to Blue Ridge, the senior class of 1967, with reminiscence of the past four years (WHERE DID THEY GO?), feel a nostalgia which perhaps only comes at times like this.

We know we must be willing to close the door and say "good-bye" to our adolescent high school years and meet the challenge of the open door, to further accelerate our learning and take our place in industry and the American stream of life.

To express our parting good wishes for this class and the instructors and students we leave behind, may we wish for each:

"Health enough to make work a pleasure.
Wealth enough to support our needs.
Strength to battle with difficulties and
overcome them.
Patience enough to toil until some good
is accomplished.
Charity enough to see some good in our
neighbors.
Faith enough to make real the things of
God.
Hope enough to remove all anxious fear
concerning the future."

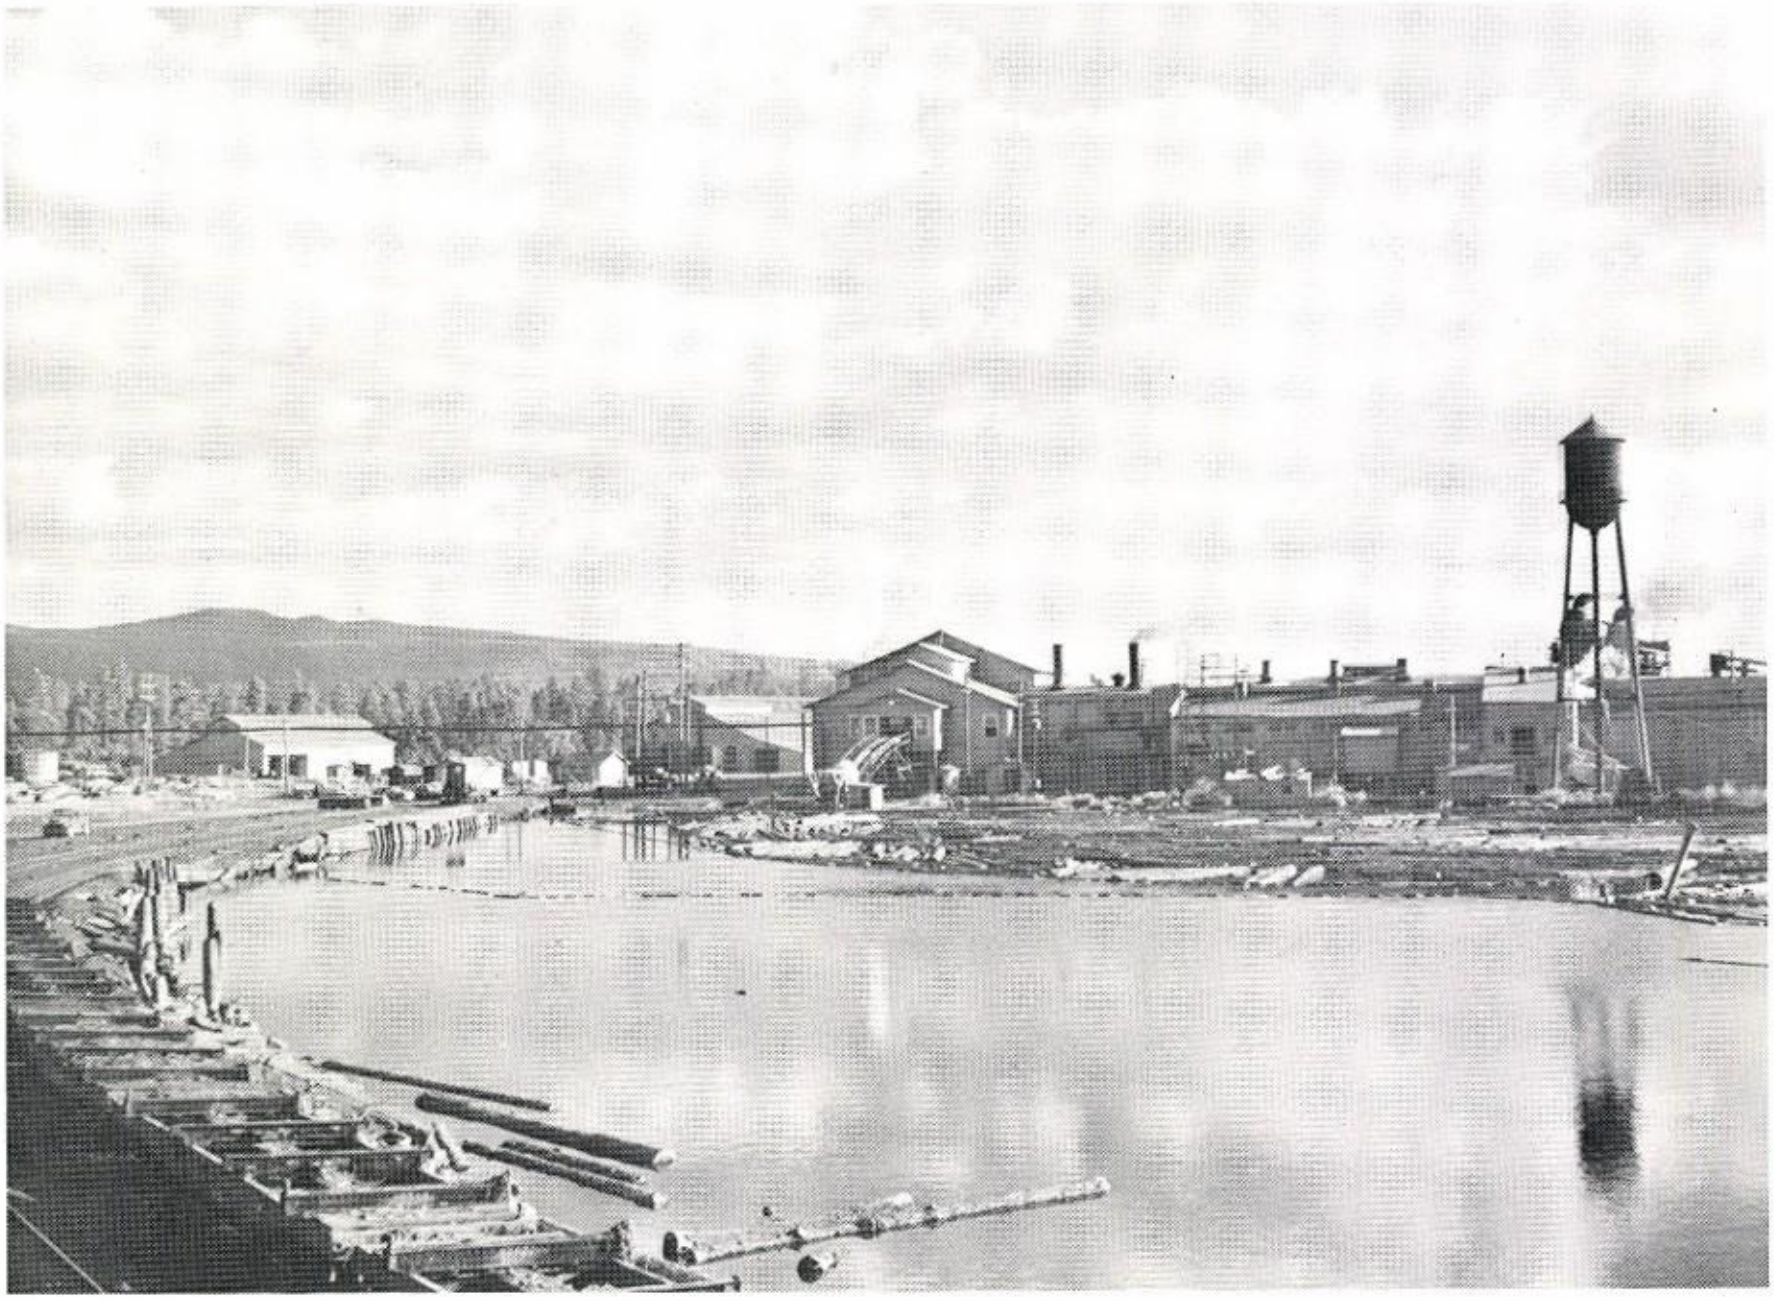
Southwest Forest Industries



Trees, paper, lumber! Today this trio is as much part of Arizona's thriving economy as her abundant sunshine. Give thanks for the bountiful and beautiful forest to excellent forest management by federal and state agencies, to conservationists, and to private industry . . .all whom are dedicated to multiple use of the forest. Southwest is proud to be a partner in the conservation of our heritage through selective harvesting and full utilization of our forest resources.
